TECHNICAL FEATURES:	In compliance with EN 14411/G Bla GL standards
INTENDED USE:	Interior floor and wall coverings in residential applications

INFORMATIONS:

Go Colors represents an important achievement for the colour project of Gardenia.

The large tile size 30x60 is used to cover walls simulating one large and single stroke of the brush.

The glossy and bright glaze enhances the colours of Go Colors, bringing back to life interiors of a classic ceramic context made of strokes and vibrations of colour. The 15x60 tile size is also ideal for designing shapes on the walls and integrates correctly with the modular 30x60 size.

The Go Colors collection amplifies the Gardenia project within the Go Design family, offering a colourful and decorative design that is perfect for creating modern and dynamic interiors in line with furnishing and fashion trends. The 10 colours are designed to be freely mixed and matched.
